Pamphile Musonda
FULL STACK WEB DEVELOPER

Email | GitHub | LinkedIn | Twitter | AngelList | Medium | Portfolio

SUMMARY

Full-stack developer in love with developing full-stack applications using Ruby on Rails and React. A very great developer to work within a remote team, and able to learn new languages so quickly.

SKILLS

Front-End: JavaScript, React, Redux, Bootstrap, Sass, jQuery, HTML5, CSS3
Back-End: Ruby, Rails, MySQL, PostgreSQL.
Tools & Methods: Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools
Professional: Remote Pair-Programming, Teamwork, Mentoring

EXPERIENCE

MICROVERSE   Remote
Full Stack Web Developer & Mentor   May 2022 – Present
- Mentored 2 junior developers per week, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program.
- Mastered intermediate and advanced topics in full-stack development (including Rails, Git, and DS&A challenges) while building multiple full-stack projects both independently and via pair-programming.

Music quotes conference - Live Demo
- A website for music fans where they can see quotes about music.
- Built with HTML5, CSS3, and JavaScript.
Any country info - Live Demo
- Single page application giving general information about any country in the world.
- Built with HTML5, CSS3, React and Redux.
Online Car Reservation (under construction) - See source
- A car reservation website, where a user can book a car, add, delete and cancel a reservation.
- Built with Ruby on Rails, React and Redux.

Grand Journal| Remote
WordPress developer and contents creator| GrandJournalcd
January 2020 – November 2021

- Created unique web pages with a unique user interface.
- Recipient of the Main Webmaster honor by working overtime on large projects that require a lot of attention to small details .
- Worked on big projects and increased the number of visits on the website by 15%.

EDUCATION

MICROVERSE | *San Francisco, California*   May 2022 – January 2023
Remote Full Stack Web Development Program, Full Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair-programming using GitHub, industry-standard gitflow, and daily standups to communicate and collaborate on with international remote developers.

IT Salama Don Bosco | *RD CONGO*   September 2016– August 2019
High School Diploma, Industrial Electronics
- Built traffic lights, a very impressive traffic light project using electronic components, and also presented as the last project at a practice jury in front of over 100 people.
- Implemented a radiofrequency and voice amplification system, a self-directed project using electronic components.
